

FLAT BELT COMPRESSION CONVEYING SYSTEM

The Quantum Compression Conveying System is fully adjustable and will compress ingredients to allow a more uniform thickness. All Quantum conveying systems feature stainless steel construction and utilize USDA compliant, reinforced, urethane belting. Sanitary design with no tools needed for disassembly minimizes cleaning time. Custom lengths and widths are available.

MODEL #QTCC SERIES

SPECIFICATIONS

BELTS:

USDA Compliant
V-guide for Easy Tracking

UTILITY REQUIREMENTS:

380-480 VAC., 15 Amp Circuit 50-60 Hz.
